

# The Lily Group Seed Distribution 2015-2016

Welcome to the 2015-2016 seed list, the forty fifth issued by the Lily Group. The challenges of wet & windy weather may have been prominent again this year but have not prevented a wonderful range of seed being harvested. With our seed contributors covering sixteen countries in both hemispheres, when one region suffers, another prospers.

Careful scrutiny will uncover some real rarities. The range of species lily seed is as strong & varied as ever. The Div II martagon hybrids & Div VI trumpets & aurelians are especially well represented this year.

The price of seeds remains at 60p per packet. The process of distribution is described on pages **27 to 29**. Seed contributors will be rewarded with 1 free pack of seeds for every 2 contributions of species lilies, and 1 free pack for every 3 contributions of everything else. This is subject to individual contributions being large enough to provide three or more packets of seed & free packets are limited to a total of ten.

The authorities in Australia & New Zealand publish lists of plant species, seeds of which may be imported. Members living in the United States must send a copy of a 'Small lots' import permit available free of charge at:

[http://www.aphis.usda.gov/import\\_export/plants/plant\\_imports/smalllots\\_seed.shtml](http://www.aphis.usda.gov/import_export/plants/plant_imports/smalllots_seed.shtml)

Every effort has been made to list seed accurately based on information supplied. Lastly, all of our thanks are due to the sixty four seed contributors, without whose generosity, enthusiasm & commitment there would be no seed list.

George Battle

# The Horticultural Classification of Lilies

## **Division I Asiatic hybrids**

Hybrids derived from such species or hybrid groups as:  
*L amabile*, *L bulbiferum*, *L callosum*, *L cernuum*, *L concolor*,  
*L dauricum*, *L davidii*, *L lancifolium*, *L lankongense*,  
*L leichtlinii*, *L x maculatum*, *L x hollandicum*, *L pumilum*

## **Division II Martagon hybrids**

Hybrids of the martagon type derived from the following species and their types:  
*L martagon*, *L hansonii*, *L medeoloides*, *L tsingtauense*

## **Division III Candidum hybrids**

Hybrids derived from *L candidum*, *L chalcedonicum* or other European species except *L martagon*

## **Division IV American hybrids**

Hybrids of American species. Most hybrids are derived from the western American species *LL bolanderi*, *humboldtii*, *kelloggii*, *pardalinum* and *parryi*

## **Division V Longiflorum hybrids**

Hybrids derived from *L longiflorum* and *L formosanum*

## **Division VI Aurelian & Trumpet hybrids**

Lilies & Aurelian hybrids derived from Asiatic species including *L henryi* but excluding those derived from *LL auratum*, *speciosum*, *japonicum* and *rubellum*

## **Division VII Oriental hybrids**

Hybrids of Far Eastern species such as *L auratum*, *L speciosum*, *L japonicum* and *L rubellum*, including any of their hybrids with *L henryi*.

## **Division VIII All hybrids not provided for in any other division**

## **Division IX Lilium species, their varieties & forms**

## Ordering Seeds

Members may order seed by email or by post using the order form supplied. Seed donors will receive 1 free pack of seeds for every 2 contributions of species lilies and 1 free pack for every 3 contributions of anything else to a maximum of 10 free packets. Donors may order up to 100 packets of seed. Non-donors may order up to 30 packets. The price of seed is 60p per packet.

Charges for packing & postage are:

- Members outside Europe £3.00
- Members in Europe but outside the UK £2.00
- UK members £1.00

### Digital ordering

The digital form will be sent with a Word attachment which is the order form. Download this into **My Documents**, complete it and email it back to Pat Huff at

[lilygroupseeds@gmail.com](mailto:lilygroupseeds@gmail.com)

When the orders have been filled, the order form will be emailed back to you. It now acts as a pro-forma invoice, confirming what seeds you have got and how much the total cost is.

## Postal ordering

1. When ordering by post, please print your name & address clearly on the order form provided and order by number only, in numerical sequence. Orders that are difficult to read or do not follow the above procedure will have to be put aside to be dealt with as time permits.
2. If you have an email address, please enter this on the order form. This will make communication easier should any query arise.

## General points for ordering

1. Please do not order more than a single packet of any one item in the list.
2. Most seeds packets will only be numbered and not labelled with the name of the seed. It is important, to retain your copy of the list to identify your seeds.
3. Seeds will be sent in padded envelopes. Please do not enclose an envelope with your order.
4. Bulblets and bulbils cannot be sent outside of the European Union.
5. Members resident in the USA are reminded that they must supply a copy of their import permit and address label issued by USDA. Also, USDA restrictions limit imports to a maximum of 50 packets of seed.
6. **Orders will be accepted up to the 15<sup>th</sup> of March 2016, and all orders will be despatched by the end of that month.**

## Payment

Please note seeds will only be sent out once payment has been received.

**PayPal** is our preferred method of payment for seeds. **It is not necessary to have a personal PayPal account in order to make an online payment.**

Payment may also be made by cheque, payable to **The Lily Group**. If paying by cheque, please write “Not to exceed” with the amount between the cheque crossing; alternatively, please provide a lengthy list of substitutes.

**Payment by credit card is not available.**

## Substitutes

Seed of rare items is often in short supply and is always sold out before demand is satisfied. A list of substitutes (clearly labelled as such) given after your main choices is always useful.

## Propagation & growing on

See the excellent short account by Gene Mirro of his science-based approach in the 2013-2014 **Lilies & Related Plants** pages 103-110.
