

The Lily Group Seed Distribution 2019-2020

2019 has proved to be a year of extreme climate events which have affected our members in many parts of the world and have resulted in a slimmer seed list than usual for our 49th annual publication. However, there are still many rarities & highly desirable offerings to be found in both the range of species and hybrids.

Photos of many lilies & parent bulbs are displayed at:

<https://rhslilygroup.org/seed-list-photo-library/>

Wherever a photo is available, the donor's name is marked *.

The price of seeds remains at 60p per packet. Payment & ordering is described on pages **19 to 21**.

A new declaration form is required by customs in Australia - we can supply this. New Zealand publishes lists of those plant species which it is permitted to import. Members living in the United States must send a copy of a 'Small lots' import permit available free of charge at:

http://www.aphis.usda.gov/import_export/plants/plant_imports/smalllots_se ed.shtml

The Lily Group seeks assurances that any wild-collected seed offered in this list has been collected in accordance with the laws of the source countries and that its distribution is allowed under the terms of any permits to collect the seed.

In this difficult year, our thanks go to those fifty one dedicated growers whose work resulted in this year's distribution. I am also most grateful to everyone who has sent me photos of plants featured in the list, now displayed on the website:

Ordering Seeds

Members may order seed by email or by post using the order form supplied. Seed donors will receive 1 free pack of seeds for every 2 contributions of species lilies and 1 free pack for every 3 contributions of anything else to a maximum of 10 free packets. This is conditional on individual contributions being sufficient to provide three plus packets of seed; free packets are limited to a total of ten.

Donors may order up to 100 packets of seed per household and non-donors up to 30 packets. The cost is 60p per packet.

Charges for packing & postage are:

- Members outside Europe £4.00
- Members in Europe but outside the UK £3.00
- UK members £2.00

Digital ordering

The digital form will be sent with a Word attachment which is the order form. Download this into **My Documents**, complete it and email it back to Pat Huff at

lilygroupseeds@gmail.com

When the orders have been filled, the order form will be emailed back to you. It now acts as a pro-forma invoice, confirming what seeds you have got and how much the total cost is.

Postal ordering

1. When ordering by post, please print your name & address clearly on the order form provided and order by number only, in numerical sequence. Orders that are difficult to read or do not follow the above procedure will have to be put aside to be dealt with as time permits.
2. If you have an email address, please enter this on the order form. This will make communication easier should any query arise.

General points for ordering

1. Please do not order more than a single packet of any one item in the list.
2. Most seeds packets will only be numbered and not labelled with the name of the seed. It is important, to retain your copy of the list to identify your seeds.
3. Seeds will be sent in padded envelopes. Please do not enclose an envelope with your order.
4. Bulblets and bulbils cannot be sent outside of the European Union.
5. Members resident in the USA are reminded that they must supply a copy of their import permit and address label issued by USDA. Also, USDA restrictions limit imports to a maximum of 50 packets of seed.
6. **Orders will be accepted up to the 16th of March 2019, and all orders will be despatched by the end of that month.**

Payment

Please note seeds will only be sent out once payment has been received.

PayPal is our preferred method of payment for seeds. **It is not necessary to have a personal PayPal account in order to make an online payment.**

Payment may also be made by cheque, payable to **The Lily Group**. If paying by cheque, please write “Not to exceed” with the amount between the cheque crossing; alternatively, please provide a lengthy list of substitutes.

Payment by credit card is not available.

Substitutes

Seed of rare items is often in short supply and is always sold out before demand is satisfied. A list of substitutes (clearly labelled as such) given after your main choices is always useful.

Propagation & growing on

The Lily Group website has an excellent guide to seed sowing by Mel Herbert:
